

## *Metal Treating Institute Midwest Chapter Meeting*

***March 06, 2012  
Key Lime Cove Resort  
Gurnee, Illinois***

### ***Industry Specs and Their Impact on Productivity and Profits***

Whether it's AMEC designing industry specs or Nadcap enforcing them, dealing with the industry specification process can be a real headache to owners, and quality/production managers. There are many questions being asked on how to efficiently keep up with specs, access, who to call for technical questions, parts vs. raw materials and will I pass an audit with my spec process on my shop floor? MTI's Technical Committee Chairs, Bob Hill from Solar Atmospheres of Western PA and Bob Ferry from FPM Heat Treating will lead you through an interactive and informative session to help you understand the process, challenges you face and solutions when dealing with industry specs. A session for every owner or quality/production manager.

### ***You Received a Large Outsourcing Project... Where do you get the \$1,000,000+ You Need to COMMIT?***

After TARP, the economic downturn and the further restrictions on banking, it is very tough to access the capital you need to grow your business. Lets face it, not everyone has the cash to purchase a new furnace. New opportunities require available financing. Kerri Agee, President of Banc-Serv PARTNERS is a specialist in accessing SBA loans. Banc-Serv PARTNERS has over 60 years of collective experience working in the SBA market. This is a great session for owners and CFOs to learn what financing options are available for the future the growth of your business.
